COCHIN UNIVERSITY OF SCIENCE AND TECHNOLOGY

The Cochin University of Science and Technology (CUSAT), nestled amidst the verdant landscapes of Kerala, has emerged as a premier institution for advanced education and research in India. Since its inception in 1971, the university has redefined its objectives to promote graduate and postgraduate studies and advanced research in applied sciences, technology, industry, commerce, management, and social sciences.
It has spread its wings far and wide to encompass new and emerging frontiers across the intellectual horizon. The University's motto is "Tejasvi Navadhitamastu", which conveys, "May the wisdom accrued deify us both - the teacher and the taught - and percolate to the universe in its totality."
Over the past five decades, CUSAT's commitment to excellence has led to its ranking in prominent international and national university rankings. The institution has been consistently ranked among the world's premier universities, with notable achievements including:

- Ranked 10th in India among State Public Universities in NIRF Ranking 2024
- 29th in QS World University Rankings: Sustainability 2024
- 301+ in Asian University Ranking
- Tier 1 Accreditation for all 7 Engineering Programmes of SOE by the National Board of Accreditation (NBA)
- Ranked 7th in India & 1st in Kerala by India Today 2024, and 24 by The Week.
- 35th in UniRank 2024 Indian University Ranking of 714 Institutions
- Recipient of the DRDO-Academy Excellence Award 2020.
- A+ grade Accreditation by the National Assessment and Accreditation Council (NAAC)

The University takes pride in its envious record in campus selection and is a favourite destination for many renowned MNCs for recruitment. CUSAT is also proud that its alumni adorn vital positions in many highly acclaimed R&D institutions and companies both in India and globally, serving as a testament to the aspirations and success fostered by this institution.

DEPARTMENT OF SHIP TECHNOLOGY

The Department of Ship Technology holds a distinguished position as a pioneer in Naval Architecture education in India. It was established in 1975 with the primary goal of nurturing a new and dynamic generation of Naval Architects to cater to the needs of the Indian Shipbuilding Industry, Ship Classification Societies, R&D organizations, the Indian Navy, and related entities. This department actively fosters collaboration and interaction with esteemed institutions such as IITs, foreign universities, shipyards, and various industries. These organisations have graciously extended their resources and expertise to provide training to our students. A significant milestone in the department's history is its fruitful partnership with Rostock University, Germany, which dates back to 1978.

The institute has gained recognition as a Center of Excellence by the Indian Navy. Currently, 28 cadets from the Indian Navy are pursuing the B.Tech. course in the department. Notably, the Naval Architecture course has received accreditation from the National Board of Accreditation (NBA) under the Tier-I system, making it the first such recognition for architecture colleges in India.

The department offers a range of programs, including M.Tech. and Ph.D. In addition, it undertakes research and consulting projects financed by institutions such as Cochin Shipyard Ltd., ClassNK, and DRDO laboratories like NSTL, NPOL etc. The curriculum aligns with international standards and has been developed and updated in consultation with experts from academic institutions and industries. The department's commitment to providing quality education has resulted in graduates who are highly competent professionals. This has led to a remarkable achievement—an unparalleled 100 per cent placement record for its graduates in both Indian and international contexts.

MESSAGE FROM
THE HEAD OF THE DEPARTMENT

Dear Esteemed Recruiters,

We deeply appreciate your support as we celebrate a significant milestone, Golden Jubilee of the Department of Ship Technology this year. Over the past fifty years, we have consistently demonstrated our commitment to excellence in Naval Architecture and Shipbuilding education, equipping skilled graduates to navigate the evolving challenges of the maritime industry.

Our success is attributed to the synergy among our stakeholders - students, the institute, and recruiters. This achievement is a direct result of the collective efforts of our talented students, dedicated faculty, accomplished alumni, and your continued trust in the expertise and skills of our graduates.

The fifty glorious years is not just a reflection of our past but a beacon guiding us toward a promising future in maritime education. As we mark this milestone, we invite you to participate in the Placement Season for the 46th batch of B.Tech. students. You are an integral part of our journey towards excellence, and your contribution is vital in making us feel proud of our achievements.

We look forward to collaborating with you and continuing our legacy of excellence.

Sincerely,

Dr. Satheesh Babu P. K.
Head of the Department
Department of Ship Technology, CUSAT

MESSAGE FROM
THE FACULTY PLACEMENT COORDINATOR

As the Department of Ship Technology celebrates its Golden Jubilee anniversary, I would like to reflect on our enduring legacy of academic and professional excellence, expressing gratitude to past recruiters who have contributed to our success. This milestone is a testament to our enduring commitment to advancing maritime education and fostering industry-ready professionals.

Our curriculum is continually updated to incorporate the latest developments in the maritime industry, and our students gain valuable experience through guest lectures, live projects, site visits, and a mandatory four-week summer internship. These initiatives have earned our program Tier 1 accreditation from the National Board of Accreditation (NBA).

We appreciate the trust placed in our department and invite potential recruiters to collaborate with us this season. We also acknowledge the crucial support of our distinguished alumni and commend our students for maintaining the department's high standards.

We look forward to a successful and mutually beneficial partnership.

Aravind K. R.
Asst. Professor & Faculty Placement Coordinator
Department of Ship Technology, CUSAT

1995

Launched the M.Tech. program in Computer Aided Structural Analysis and Design, advancing specialized education.

1982

Inaugurated the Department's first workshop, enhancing practical training.

1998

Approved by the Ministry of Surface Transport, Govt. of India, for MOT Examination, affirming academic rigor.

1987

Indian Navy recognized the Department as a Center of Excellence, enhancing its stature in naval education.

1981

Inception of DIESCON, strengthening research and consultancy services.

1994

Earned recognition by The Royal Institution of Naval Architects (RINA), marking international acknowledgment.

1978

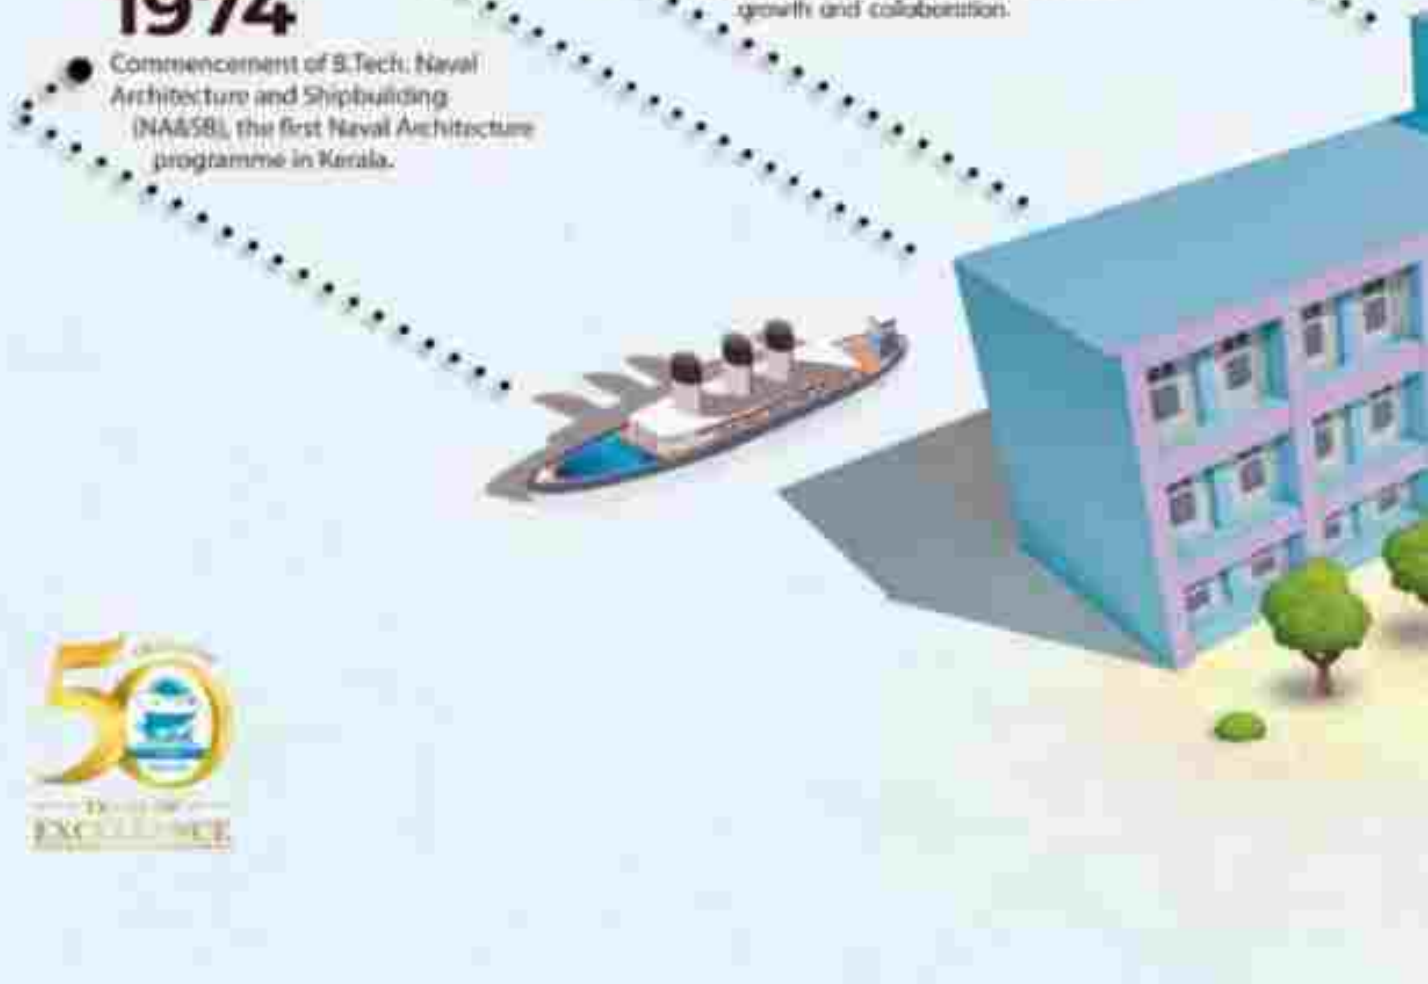

Established a technical collaboration with Rostock University, Germany, marking a significant milestone in the Department's development.

1979

Formation of the Society of Naval Architecture Students (SNAS), a student body dedicated to fostering professional growth and collaboration.

1974

Commencement of B.Tech. Naval Architecture and Shipbuilding (NA&SB), the first Naval Architecture programme in Kerala.

Golden Jubilee
Department Highlights

1999
Celebrated the Silver Jubilee Year, marking 25 years of the Department's journey

2005
Signed an MoU with Chosun University, Korea, expanding global academic collaboration

2006
Initiated the ClassNK Best Project Award, recognizing outstanding student projects.

2017
Established MoUs with Cochin Shipyard Limited and ClassNK, reinforcing industry partnerships.

2022
Launched the RINA CUSAT Student Chapter, connecting students with global professionals.

2022
Signed an MoU with St. Petersburg State Marine Technical University (SMTU), enhancing international ties.

2023
Achieved NBA Accreditation Tier-I system for 3 years, marking a historic first for the Naval Architecture Program in India.

2024
Signed an MoC with University of Technology and Applied Science, Oman, fostering academic exchange.

2024
Celebrating the Golden Jubilee Year, marking 50 years of excellence in Naval Architecture education.

B.Tech. Programme in
Naval Architecture & Ship Building

Accredited By, Washington Accord, 3 Years Tier 1

The B.Tech. program in Naval Architecture & Shipbuilding adheres to international standards, providing a comprehensive curriculum to educate students about modern Naval Architecture and Shipbuilding Engineering. The duration of this course is four academic years consisting of 8 semesters. This is a sandwich programme with practical training in shipyards, ship design firms and related organisations during summer vacations for up to 8 weeks. A thorough grounding in computer skills is provided by familiarizing the students with the latest computational software used in the marine industry. Practicals in Ship Resistance and Propulsion, Seakeeping and Maneuvering, are conducted at Naval Science and Technological Lab, Visakhapatnam, during the 6th semester of the course. The course culminates in an individual Ship Design project covering hull form design, structural design, powering and propeller design, general arrangement etc. An outcome-based syllabus has been implemented to increase the quality of education in B.Tech. Programme.

Course Structure

Naval Architecture Subjects

- Introduction to Naval Architecture
- Basic Ship Theory
- Stability of Ships
- Resistance of Ships
- Propulsion of Ships
- Controllability of Ships
- Ships Motions in Seaway
- Ship Structural Analysis
- Structural Designs of Ships
- Ship Design
- Ship Production Technology
- Ship Production Management
- Marine Engineering
- Electrical System on Ships and Shipyards
- Joining Techniques in Shipbuilding Technology
- Practical Ship Design
- Marine Corrosion & Prevention
- Computational Fluid Dynamics in Marine Technology
- Ship Recycling
- Maritime Engineering Contracts and Commercial Management

Engineering Subjects

- Engineering Mechanics
- Engineering Graphics
- Electrical Engineering
- Machine Drawing
- Fluid Mechanics
- Mechanics of Solids
- Instrumentation
- Applied Thermodynamics
- Analysis of Structures
- Material Science
- Design of Machine Elements
- Computer-Aided Design & Drafting

Lab and Workshop

- Fitting, Welding, Carpentry & Machine Shops
- Electrical Engineering Lab
- Fluid Mechanics Lab
- Model Making Lab
- Material Testing Lab
- Marine Hydrodynamics Lab
- Marine Engineering Lab

Management Subjects

- Technical Communication
- Professional Ethics

Academicians Leading Our Path

Dr. Cdr. Satheesh Babu P. K

(Head of the Department)
B.Tech. (Naval Architecture, CUSAT)
PG Diploma (Naval Construction in Warship & Submarine Design, IIT Delhi)
M.Tech. (Corrosion Science & Engineering, IIT Bombay)
Ph.D. (CUSAT)
PG Diploma (Management, Indira Gandhi National Open University)

Dr. A. Mathiazhagan

M.Sc. (Applied Science, Anna University, Chennai)
M.E. (Metallurgical Engineering, NIT Trichy)
Ph.D. (CUSAT)

Dr. C. B. Sudheer

B.Tech. (Naval Architecture, CUSAT)
Dr. Ing. (University of Rostock, Germany)

Dr. Rajesh P. Nair

B.Tech. (Mechanical Engineering, LBS College, Kasargod)
M. Tech. (Computer Aided Structural Analysis and Design, CUSAT)
Ph.D. (Applied Mechanics, IIT Chennai)

Dr. Favas T. K

B.Tech. (Mechanical Engineering, Govt. Engineering College, Thrissur)
M.Tech (Industrial Refrigeration Engineering, TKM College of Engineering, Kollam)
Ph.D. (Mechanical Engineering, NIT Calicut)

Dr. Haseena K A

B. Tech. (Electrical & Electronics- LBS college of Engineering, Kannur University)
M. Tech. (Powersystem- M G University)
Ph.D. (Power System Stability & Control- NIT Calicut)

Mr. Anoop C.

B.Tech. (Naval Architecture, CUSAT)
MEng. (Naval Architecture, University of New Orleans, USA)

Dr. K. Sivaprasad

B.Tech. (Naval Architecture, CUSAT)
M.Sc. (University of Strathclyde, Glasgow, UK)
Ph.D. (CUSAT)

Dr. P. Krishnankutty

B.Tech. (Naval Architecture, CUSAT)
M.E (Ocean Engineering, Stevens Institute of Technology, New Jersey, USA)
Ph.D. (Marine Hydrodynamics, IIT Madras)

Dr. D. D. Ebenezer

B.Tech (Naval Architecture, IIT Madras)
M.S (Ocean Engineering, University of Rhode Island)
Ph.D. (Ocean Engineering, University of Rhode Island)

Dr. Manoj T. Issac

B.Tech. (Civil Engineering, T.K.M. College of Engineering, Kollam)
M.Tech. (Ocean Engineering, IIT Madras)
Ph.D. (Memorial University of Newfoundland, Canada)

Dr. Beena Mary John

B.Tech. (Civil Engineering, CUSAT)
M. tech. (Computer Aided Structural Analysis and Design, CUSAT)
Ph.D. (Dept. of Applied Mechanics and Hydraulics, NIT Surathkal)

Mr. Aravind K. R.

B.Tech. (Naval Architecture, AMET University)
M.Tech. (Marine Engineering, CUSAT)

Mr. Vyshakh K.B

B.Tech. (Civil Engineering- M.A College of Engineering, Kothamangalam)
M. Tech. (Computer Aided Structural Analysis and Design, CUSAT)
Ph.D. (Structural investigations on marine grade welds, Department of Ship Technology, CUSAT)

Department and the Indian Navy

The Indian Navy, since 1987, has been sponsoring Officer Cadets for the four years B.Tech. program in Naval Architecture and Ship Building at the Department of Ship Technology. Every year, 7 Officer Cadets from the Indian Naval Academy get admitted to the department after initial training for six months at the Indian Naval Academy. The Principal Goal was to develop a new generation of Naval Architects capable of meeting the needs of Design, Construction and Research & Development of Indigenous Warships of the Indian Navy.

Students onboard India's first indigenous aircraft carrier, INS Vikrant

The Naval Construction Wing

The Naval Construction Wing located at Naval Base Kochi is a premier training centre for Naval Architect Officers of the Indian Navy. The training at the Naval Construction Wing is complex and unique, wherein the Officer Cadets who undergo B.Tech. at CUSAT are imparted with naval training. As part of training, they follow a rigorous routine that includes physical activities such as Games, Swimming, Firing, Parade, Drill etc. and Naval orientation. The trainees from NCW are dependent on Cochin University for their academic curriculum, where they attend regular classes at the Department of Ship Technology with their civilian counterparts and represent the Department in various technical paper presentations, seminars, and sports. The main objective of the Naval Architecture training is to create future Naval Architects who are professionally proficient and academically sound. NCW (Kochi) has produced almost 400 Naval Architect Officers for the Indian Navy who are presently involved in state-of-the-art Ship design, Shipbuilding and other operational roles

Faculties from the Indian Navy

The Naval Officers posted at NCW share the academic load at the Department of Ship Technology by taking classes for various subjects. They are also involved as Project guides and Project coordinators for Final year B.Tech. projects.

Cdr. Deepak Sebastian

B.Tech. (Naval Architecture, CUSAT)

M.Tech. (CASAD, CUSAT)

Post Graduate Diploma (Naval Construction in Warship & Submarine Design, IIT Delhi)

Lt. Cdr. Anand S Nair

B.Tech. (Naval Architecture, CUSAT)

MTech. (Ocean Structures, IIT Madras)

Post Graduate Diploma (Naval Construction in Warship & Submarine Design, IIT Delhi)

Department Facilities

COMPUTER LAB

A Computer Lab equipped with the latest Ship Design & Analysis software and High-End Workstations such as:

- AVEVA Marine
- AutoCAD
- General Hydrostatics (GHS)
- NavCad Rule Books of ClassNK, IRS
- MIKE from DHI (2002 release)
- Matlab & Simulink
- Rhino
- CATIA
- Star CCM+
- ANSYS
- Orcaflex
- ABAQUS

LIBRARY

The department library is fully automated and is rich in collection with more than 10,000 books and journals in Naval Architecture & Shipbuilding.

HYDRODYNAMIC LAB

The Hydrodynamic Lab features a wave flume that facilitates the study of wave effects on coastal and offshore structures, supporting research in marine dynamics and renewable energy.

MODEL ROOM

The model room consists of an engine room model, handed over by Cochin Shipyard Ltd. and the ship models made by the students.

WORKSHOPS & LABORATORIES

Laboratories and workshops for enhancing basic engineering skills include a fitting shop, welding shop, machine shop, fluid mechanics lab, and an electrical lab.

RECRUITMENT FACILITY

The Department is well-equipped with all the amenities required to conduct a smooth offline as well as online recruitment drive.

Summer Internships

Students undergo summer training programs at various Maritime-related firms as an integral part of their curriculum. It provides an interface between the students and the shipbuilding industry, which creates a better understanding of the fundamental activities in the global shipbuilding industry.

List of major companies offering training to students of the Department of Ship Technology:

India	Buoyancy Consultants and Engineering
	Chowgule Shipyard Pvt Ltd.

Nurturing a Legacy of Tenacious Alumni...

Academic rigor and industry exposure have ensured that the people who graduate from the Institute are well equipped to handle positions, of great responsibility in the best firms around the globe.

1500+

Strong alumni base built over 49 years

Industrial Recognitions to the Department

The ClassNK Best Project Award, presented by ClassNK, Japan, is given annually to acknowledge the Best Final Year Projects of B.Tech. NA&SB.

An MoU was signed with Cochin Shipyard Ltd., which provides Internships, Industrial Visits etc.

RINA CUSAT Student Chapter was officially launched by Mr. Chris Boyd, the Chief Executive of RINA (Royal Institution of Naval Architects)

The Department has a Consultancy wing named DESCON, which contributes to Maritime Design and Consultation solutions to the Inland Water Transport Department.

Various shipyards and R&D organizations contribute a diverse range of ship models, reflecting its strong industrial recognition and collaboration within the maritime sector.

The Vice Chancellor of University of Technology & Applied Sciences, Sultanate of Oman will be initiating productive partnership with our department.

Oshima Shipbuilding Co. Ltd. Japan, contributes a vast collection of valuable books every year to the library.

Royal Institution of Naval Architects (RINA) Student Naval Architect Award 2022 distribution ceremony.

MESSAGE FROM THE INDUSTRY LEADERS

M. Abdul Rahim
Advisor to ClassNK and
Chairman of NAPA Group

"I am very pleased to note that the 48th batch of naval architects is graduating from CUSAT. ClassNK has long been associated with CUSAT and over the years we have recruited more than 28 CUSAT naval architects who work around the world. They are well rounded team players, brilliant, hardworking, and their contribution to ClassNK has been enormous. They will be an asset to any organisation as they are truly professional with positive attitude, academically very sound, and excellent in client management with strong commitment and dedication. Wishing the graduates every success for a bright future."

Shifabudeen K.M.
Commercial Director
Albwardy Damen

"For the past 17 years, Albwardy Damen has consistently recruited Naval Architects from the Department of Ship Technology, CUSAT, through campus placements. We have found CUSAT graduates to possess strong work ethic, quick learning abilities, and an impressive adaptability to diverse work environments and multicultural teams. Their strong academic foundation allows them to excel not only in core design roles but also in project management, cost estimation etc. The management at Albwardy Damen has always valued the contributions of CUSAT Naval Architects. I extend my best wishes to the upcoming graduates for their future success."

Sajeendra K Nambiar
Managing Director
SeaTech Integrated Technology Pvt Ltd

"SeaTech has benefited immensely from the graduate placement program of Department of Ship Technology, Cochin University of Science & Technology. As a centre of excellence in marine design, innovation & technology delivering cutting edge services and bespoke solutions around the globe, we have found that your young and passionate graduates have quickly aligned with our high professional standards and work ethics. This is attributable to the best education practices and standards being followed at the university, availability of excellent facilities and highly qualified faculty. They bring value to the organisation and in turn we instil them with the best industry practices, skillsets and knowledge available across our global centres of operations."

Ashik Subuhani
Managing Director
Sea Delta Marine & Offshore Engineering

"The academic aptitude and personal qualities of graduates from the Department of Ship Technology, CUSAT is extremely satisfying . Their skills on teamwork, organizational ability, problem solving, IT skills, communication and time management are fantastic. I wish the very best to the new graduates from the department on placements."

MESSAGE FROM THE INDUSTRY LEADERS

Renganathan S
Sr. Principal Surveyor
Indian Register of Shipping

"I am privileged to interact with CUSAT Naval Architecture graduates through past many years and can confidently state that the graduates are highly reputed and knowledgeable. The curriculum is well designed and up to date, and with the internship programme students are getting opportunity to interact with experienced professionals in the field. CUSAT naval architecture students also possess excellent teamwork and communication skills, and they easily get accustomed to work collaboratively in multidisciplinary projects. I highly recommend CUSAT Naval Architecture students to any organization in the maritime sector, and I am confident that they will make valuable contributions to your team.

Pyarilal Kaudy
Director of Operations
Crest Waters Maritime LLC

"We have had the pleasure of working with several graduates from Department of Ship Technology, CUSAT, and they have consistently demonstrated a high level of professionalism, technical knowledge, and problem-solving abilities. Their strong work ethic and ability to adapt to industry challenges have made them valuable contributors to our projects. We highly recommend them to any organization seeking skilled and reliable professionals.

Hariraj P
Chief Operating Officer,
Smart Engineering & Design Solutions (India) Pvt. Ltd.

"As a former student of the Department of Ship Technology at Cochin University, I can confidently say that the education here is highly industry oriented, nurturing adaptability and problem solving skills. Integrating with the Industry was seamless, thanks to the practical knowledge imparted. Our Alumni are leaders in Shipyard, Design Houses, Classification Societies, and many other companies around the globe. Notably, key team members of SEDS, crucial to its development, hails from this department.

Vinod Jasordanan
Director, South Asia Zone
Bureau Veritas Solutions
Marine & Offshore

"Graduates from Cochin University's Ship Technology Department excel in naval architecture and shipbuilding, making them valuable hires for design offices, research institutes, and shipyards. Their practical internships throughout the program align classroom learning with real-world experience. The comprehensive ship design project in their final year, guided by faculty, provides a holistic understanding of ship design. They stay updated on industry trends through virtual seminars. Recent graduates display strong knowledge, analytical skills, diligence, and effective communication. Overall, they are highly employable and poised to make significant contributions to their organizations.

SNAS

SOCIETY OF NAVAL ARCHITECTURE STUDENTS

Society of Naval Architecture Students, SNAS is an academic organisation of students pursuing B.Tech. course from Department of Ship Technology, Cochin University (CUSAT). With more than 46 years of functioning SNAS continues to be vital part of student techno-cultural and social activities. With due guidance from senior faculties SNAS organises various seminars, competitions and exhibitions on par excellence with national and International standards. SNAS is very active in promoting not only academic but also extracurricular activities of students to make them well rounded individuals.

SNAS
ACTIVITIES

DIMS 2024

Students showcased their dedication and enthusiasm through the volunteer efforts, ensuring smooth operations, assisting speakers, and facilitating the engagement of participants. SNAS members contribute significantly to the event's organization, embodying professionalism and a passion for maritime advancements.

NAUTIKA

NAUTIKA, the convocation ceremony which marks a proud and momentous occasion for the passing-out batch of the Department of Ship Technology. As these bright minds set sail towards their future endeavors, this ceremony celebrates their hard-earned achievements, perseverance, and dedication to the world of marine engineering and shipbuilding.

SNAS NITE 2024

SNAS Nite event was a memorable reunion for the Department of Ship Technology. It united teachers, alumni, and students, fostering connections and celebrating achievements. This event embodied the enduring unity and legacy of the Department, creating a nostalgic, camaraderie-filled evening.

NAUKA

The Annual Inter Semester Sports extravaganza of the Department of Ship Technology. This thrilling competition is where talents are discovered, legends are made, and the true spirit of sportsmanship sails high.

SHIPSTECHNIC

SHIPSTECHNIC, the annual technical journal of the Department of Ship Technology released their 34th edition. The journal that sails on the waves of innovation and technological excellence in the maritime world.

ALUMNI INTERACTION

Esteemed alumni returned to share their insights, career journeys, and professional wisdom with current students. The session fostered meaningful connections, inspired students with success-stories, and strengthened the department's vibrant community, highlighting the enduring impact of its alumni network.

STUDENT-LED COMPETITIONS

SNAS organized a series of interactive events including debates and quizzes to promote intellectual engagement. These activities provided a platform for students to sharpen their critical thinking and problem-solving skills while fostering a spirit of healthy competition.

VIVID CELEBRATION

The SNAS organized various celebrations such as Onam, Christmas, Iftar night etc. with the aim of nurturing a sense of community, advocating for cultural diversity, and cultivating a more inclusive and enjoyable atmosphere for all students.

WEBINAR SERIES

The Society of Naval Architecture Students recently hosted an engaging webinar series that captivated students with its rich content and expert insights. Each session offered a deep dive into critical topics in naval architecture, featuring prominent speakers from the industry.

Students have consistently demonstrated outstanding performance on a national level, achieving commendable rankings in the prestigious **GATE 2024** examination. They have achieved impressive GATE rankings.

The hydrogen-powered, zero-emission vessel "Energy Observer" dropped anchor in Kochi as the 75th stop of its world tour. The students visited the vessel and acquired informative insights on the vessel.

Students took part in the trial run of the Water Metro of the Kochi Metro Rail Limited (KMRL). This insightful visit allowed the students to witness a firsthand innovative stride in the maritime sector.

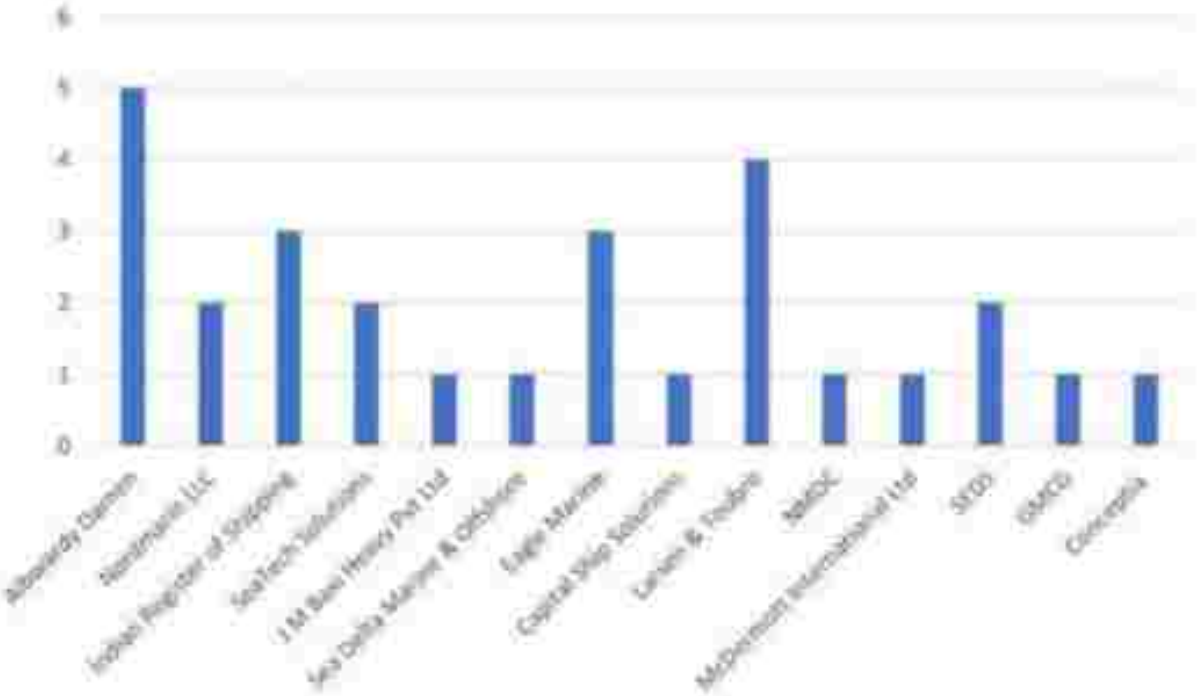

The incredible work by students has brought life to a stunning 3D model of an AHTS which is the second 3D printed model in the department. Designing was done in RHINO 3D and was 3D printed from the CUSAT FABLAB.

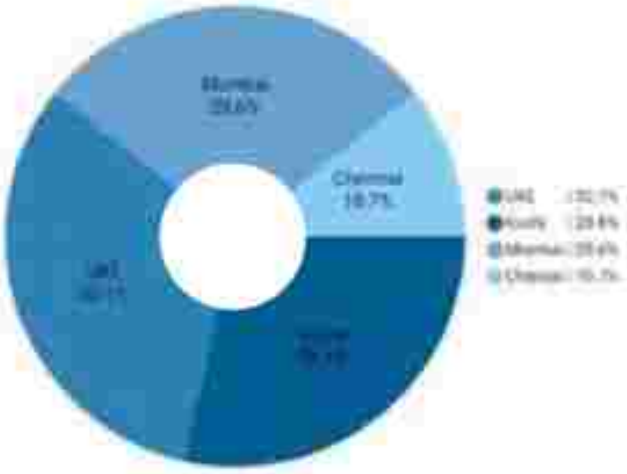

STUDENT ACTIVITIES & ACHIEVEMENTS

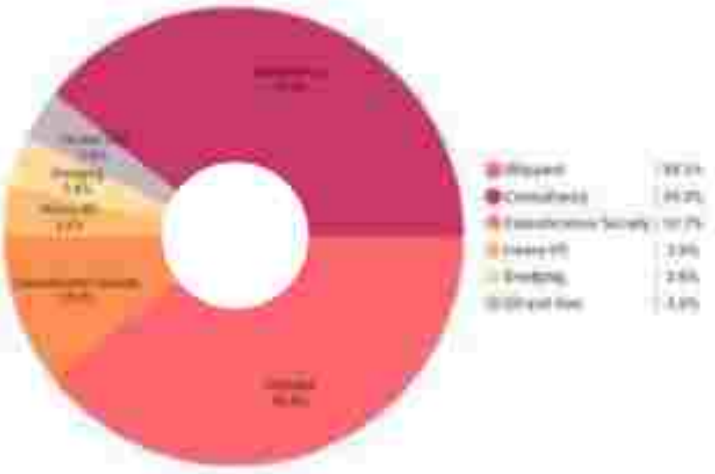

The visit to the Naval Science and Technological Laboratory (NSTL), Vizag, proved to be an insightful and inspiring experience for students. Witnessing the advanced experimental facilities and cutting-edge naval technologies firsthand sparked a sense of enthusiasm and curiosity among the students.

PLACEMENT STATISTICS 2023-24

No. of Placed Students	**:**	**28/28**
Highest CTC	**:**	**29.83 LPA**
Average CTC	**:**	**9.67 LPA**

***includes off-campus placements as well**

PLACEMENT PROCEDURE

1

Invitations and relevant information are sent out to organisations by the placement office

2

The organisations fill the job announcement form with job description and eligibility criteria

3

Interested and eligible students, meeting the job requirements complete the registration process with the placement cell

4

The final list will be provided to the organisation and they can shortlist the candidates

5

The drive day shall be finalized upon mutual agreement. The drive slot for each placement will be finalized by the placement cell

HOW TO REACH

COCHIN UNIVERSITY OF SCIENCE AND TECHNOLOGY

Nearest Airport	:	Cochin International Airport
Metro Rail	:	Cochin University Metro Station
Major Railway Station	:	Aluva Railway Station, Ernakulam Town Railway Station

Cochin University of Science & Technology
Kalamassery, CUSAT P.O.
Kochi - 682022
Kerala, India
