COCHIN UNIVERSITY OF SCIENCE AND TECHNOLOGY

The Cochin University of Science and Technology (CUSAT), nestled amidst the verdant landscapes of Kerala and cast in the mould of a federal University, is now a premier Science and Technology University in the country. The University motto is "Tejasvi Navadhitamastu", which conveys, "May the wisdom accrued daily us both - the teacher and the taught - and percolate to the universe in its totality". Since its establishment in 1971, the University has continuously refined its objectives to foster graduate and postgraduate education while advancing research in applied sciences, technology, industry, commerce, management, and social sciences.

Its strong focus on interdisciplinary research, industry partnerships, and cutting-edge infrastructure has further reinforced its standing as a premier institution in higher education. Over the past five decades, CUSAT's dedication to excellence has earned its recognition in prestigious international and national University rankings, including

Ranked 10th in India among State Public Universities in NIRF Ranking 2024	Ranked 7th in India & 1st in Kerala by India Today 2024, and 24th by The Week.
38th in QS World University Rankings: Sustainability 2024	38th in UniRank 2024 Indian University Ranking of THI Institutions
301+ in Asian University Ranking	Secured the 1st rank in the Kerala Institutional Ranking Framework (KIRF) 2024
Tier 1 Accreditation for all 7 Engineering Programmes of SOE by the National Board of Accreditation (NBA)	A+ grade Accreditation by the National Assessment and Accreditation Council (NAAC)

The University takes pride in its impressive record in campus selection and is a favourite destination for many renowned MNCs for recruitment. CUSAT is also proud that its alumni adorn vital positions in many highly acclaimed R&D institutions and companies both in India and globally, serving as a testament to the aspirations and success fostered by this institution. With the active support of the Government of Kerala and various Central agencies and international collaborations, the University is poised to scale new heights in the years to come.

DEPARTMENT OF SHIP TECHNOLOGY

As the Department of Ship Technology celebrates its Golden Jubilee, marking 50 years of excellence, it proudly stands as a pioneer in Naval Architecture education in India. Established in 1974, the department was founded with the goal of nurturing a new generation of Naval Architects to meet the demands of the Indian and International Shipbuilding Industry, Ship Classification Societies, R&D organisations, the Indian Navy, and other related sectors. Throughout its history, the department has fostered strong collaborations with esteemed institutions such as IITs, foreign universities, shipyards, and various industries, benefiting from their resources and expertise for student training. These partnerships not only affirm the department's commitment to academic and research excellence, but also ensure that students are well-prepared to meet the demands of the industry.

A significant milestone in the department's journey has been its long-standing partnership with Rostock University, Germany, which began in 1978. Recognised as a Center of Excellence by the Indian Navy, the department currently hosts 60 Indian Navy cadets enrolled in its B.Tech. program. The Naval Architecture course, accredited by the National Board of Accreditation (NBA) under the Tier-I system, was the first of its kind to receive such recognition among naval architecture colleges in India.

The faculty's expertise is reflected in their prolific contributions to the field, with over 300 research papers published in esteemed national and international journals. The department introduced an MTech program in Computer-Aided Structural Analysis and Design (CASAD) in 1988-89 and launched its PhD program in 1998.The department actively engages in research and consulting projects funded by organizations like Cochin Shipyard Ltd., ClassNK, and DRDO laboratories such as NSTL and NPOL. Its curriculum is aligned with international standards and is continually updated in collaboration with experts from academia and industry. This commitment to quality education with a steadfast commitment to shaping the future of naval architecture and shipbuilding has resulted in highly competent graduates, achieving an outstanding placement record both in India and internationally.

Message from the Head of the Department

Dr. A. Mathiazhagan
Professor and Head
Department of Ship Technology
CUSAT

Dear Esteemed Recruiters,

One of India's shining beacons in the field of Naval Architecture and Shipbuilding education is the Department of Ship Technology at Cochin University of Science & Technology (CUSAT). This Department has served as the Centre for Higher Education for the Indian Navy since 1967. The Department has collaborated with the University of Rostock in Germany before and has accreditation from the Royal Institution of Naval Architects (RINA), UK, and the National Board of Accreditation (NBA) under the Tier-I system. We also work in partnership with the top colleges and shipyards in India and internationally.

The three stakeholders—students, the institute, and recruiters—remain the focus of our commitment to delivering a system that properly balances their interests. We are aware that this achievement results from the combined efforts of our gifted students, committed teachers, accomplished alumni, and the ongoing confidence of recruiters in the knowledge and skill sets of the graduates of this esteemed institute.

The fifty glorious years are not just a reflection of our past but a beacon guiding us toward a promising future in maritime education. As we mark this milestone, we invite you to participate in the Placement Season for the 47th batch of B.Tech. students. You are an integral part of our journey towards excellence, and your contribution is vital in making us feel proud of our achievements.

I extend my sincere invitation to your esteemed organization to visit the Department of Ship Technology to interact, explore, and engage with us as a part of your campus engagement program. Let's collaborate, innovate, and differentiate through our engagement and relationship.

Message from the Faculty Placement Co-ordinator

Dr Sathesh Babu PK
Associate Professor
Dept of Ship Technology, CUSAT
Chairman, Board of Studies (Naval Architecture and Shipbuilding)
Course Coordinator, KMSME, CUSAT

As the Faculty Placement Coordinator, I am honoured to introduce our forty-seventh cohort of distinguished students, poised to enter the competitive professional arena. Over its more than five decades of existence as a premier institution, the Department of Ship Technology of Cochin University of Science and Technology has consistently strived to offer knowledge-based expert services to meet the demands of the industry. This effort has played a crucial role in instilling a positive attitude in the minds of the young generation and preparing them to confront the challenges of the shipping industry.

We strive for continuous innovation and redesign, with industry experts providing guest lectures from diverse sectors to ensure that our program is always up to date. Our approach has been specifically designed to enhance our students' ethical sense and value system, which we believe is paramount. Moreover, our students participate in a four-week-long summer internship at reputable organizations as part of their academic requirements. The comprehensive training and practical experiences they undergo are designed to significantly benefit your organization and the industry at large. All of these efforts have also contributed to our program receiving accreditation from the National Board of Accreditation (NBA).

We cordially invite you and your esteemed organization to participate in the placement drive at the Department of Ship Technology. The accompanying brochure provides detailed information about our institute and the exceptional talent awaiting your engagement. We look forward to the prospect of establishing a long-term and mutually rewarding partnership to meet your recruitment objectives.

A successful placement season would not be complete without acknowledging the invaluable and unwavering support of our distinguished alumni. Last but certainly not least, I commend the students from across different batches who have upheld the department's qualities and values, ensuring a smooth and flawless placement season.

1995

Launched the M.Tech program in 'Computer Aided Structural Analysis and Design', advancing specialized education.

1982

Inaugurated the Department's first workshop, enhancing practical training.

1998

Approved by the Ministry of Surface Transport, Govt. of India, for MGT Examination, affirming academic rigor.

1987

Indian Navy recognized the Department as a Centre of Excellence, enhancing its stature in naval education.

1981

Inception of DESCON, strengthening research and consultancy services.

1994

Earned recognition by The Royal Institution of Naval Architects (RINA), marking international acknowledgment.

1978

Established a technical collaboration with Rostock University, Germany, marking a significant milestone in the Department's development.

1979

Formation of the Society of Naval Architecture Students (SNAST), a student body dedicated to fostering professional growth and collaboration.

1974

Commencement of B.Tech Naval Architecture and Shipbuilding (NAVSHIP), the first Naval Architecture programme in Kerala.

2006

Initiated the ClassNK Best Project Award, recognizing outstanding student projects.

2017

Established MoUs with Cochin Shipyard Limited and ClassNK, reinforcing industry partnerships.

1999

Celebrated the Silver Jubilee Year, marking 25 years of the Department's journey.

2022

Launched the RINA CUSAT Student Chapter, connecting students with global professionals.

2022

Signed an MoU with St. Petersburg State Marine Technical University (SMTU), enhancing international ties.

2005

Signed an MoU with Chosun University, Korea, expanding global academic collaboration.

2025

Achieved NBA Accreditation Tier-I system continuously for second time.

2024

Signed an MoC with University of Technology and Applied Science, Oman, fostering academic exchange.

2024

Celebrated the Golden Jubilee Year, marking 50 years of excellence in Naval Architecture education.

B.Tech. Programme in
Naval Architecture & Ship Building

Accredited By

Washington Accord,
3 Years Tier 1

The B.Tech. program in Naval Architecture & Shipbuilding adheres to international standards, providing a comprehensive curriculum to educate students about modern Naval Architecture and Shipbuilding Engineering. The duration of this course is four academic years consisting of 8 semesters. This is a sandwich programme with practical training in shipyards, ship design firms and related organisations during summer vacations for up to 8 weeks. A thorough grounding in computer skills is provided by familiarizing the students with the latest computational software used in the marine industry. Practicals in Ship Resistance and Propulsion, Seakeeping and Maneuvering, are conducted at Naval Science and Technological Lab, Visakhapatnam, during the 6th semester of the course. The course culminates in an individual Ship Design project covering hull form design, structural design, powering and propeller design, general arrangement etc. An outcome-based syllabus has been implemented to increase the quality of education in B.Tech. Programme.

Course Structure

Naval Architecture Subjects

- Introduction to Naval Architecture
- Basic Ship Theory
- Stability of Ships
- Resistance of Ships
- Propulsion of Ships
- Controllability of Ships
- Ships Motions in Seaway
- Ship Structural Analysis
- Structural Designs of Ships
- Ship Design
- Ship Production Technology
- Ship Production Management
- Marine Engineering
- Electrical System on Ships and Shipyards
- Joining Techniques in Shipbuilding Technology
- Practical: Ship Design
- Marine Corrosion & Prevention
- Computational Fluid Dynamics in Marine Technology
- Ship Recycling
- Maritime Engineering Contracts and Commercial Management

Engineering Subjects

- Engineering Mechanics
- Engineering Graphics
- Electrical Engineering
- Machine Drawing
- Fluid Mechanics
- Mechanics of Solids
- Instrumentation
- Applied Thermodynamics
- Analysis of Structures
- Material Science
- Design of Machine Elements
- Computer-Aided Design & Drafting

Lab and Workshop

- Fitting, Welding, Carpentry & Machine Shops
- Electrical Engineering Lab
- Fluid Mechanics Lab
- Model Making Lab
- Material Testing Lab
- Marine Hydrodynamics Lab
- Marine Engineering Lab

Management Subjects

- Technical Communication
- Professional Ethics

Academicians Leading Our Path

Dr. A. Mathiazhagan

(Head of the Department)
M.Sc. (Applied Science, Anna University, Chennai)
M.E. (Metallurgical Engineering, NIT Trichy)
Ph.D. (CUSAT)

Dr. Cdr. Sathoosh Babu P. K.

B.Tech. (Naval Architecture, CUSAT)
PG Diploma (Naval Construction in Warship & Submarine Design, IIT Delhi)
M.Tech. (Corrosion Science & Engineering, IIT Bombay)
Ph.D. (CUSAT)
PG Diploma (Management, Indira Gandhi National Open University)

Dr. Rajesh R. Nair

B.Tech. (Mechanical Engineering, LBS College, Kasargod)
M. Tech. (Computer Aided Structural Analysis and Design, CUSAT)
Ph.D. (Applied Mechanics, IIT Chennai)

Dr. Hasoora K A

B. Tech. (Electrical & Electronics- LBS college of Engineering, Kannur University)
M. Tech. (Power systems- M.G University)
Ph.D. (Power System Stability & Control- NIT Calicut)

Mr. Anoop C.

B.Tech. (Naval Architecture, CUSAT)
MEng. (Naval Architecture, University of New Orleans, USA)

Dr. Vychakh K R

B. Tech. (Civil Engineering, M.A College of Engineering, Kothamangalam)
M. Tech. (Computer Aided Structural Analysis and Design, CUSAT)
Ph.D. (Structural investigations on marine grade welds, Department of Ship Technology, CUSAT)

Dr. K. Sivaprasad

B.Tech. (Naval Architecture, CUSAT)
M.Sc. (University of Strathclyde, Glasgow, UK)
Ph.D. (CUSAT)

Dr. P. Krishnankutty

B.Tech. (Naval Architecture, CUSAT)
M.E. (Ocean Engineering, Stevens Institute of Technology, New Jersey, USA)
Ph.D. (Marine Hydrodynamics, IIT Madras)

Dr. D. D. Ebenezer

B.Tech. (Naval Architecture, IIT Madras)
M.S. (Ocean Engineering, University of Rhode Island)
Ph.D. (Ocean Engineering, University of Rhode Island)

Dr. Manoj T. Issac

B.Tech. (Civil Engineering, T.K.M. College of Engineering, Kollam)
M.Tech. (Ocean Engineering, IIT Madras)
Ph.D. (Memorial University of Newfoundland, Canada)

Dr. Reena Mary John

B.Tech. (Civil Engineering, CUSAT)
M. tech. (Computer Aided Structural Analysis and Design, CUSAT)
Ph.D. (Dept. of Applied Mechanics and Hydraulics, NIT Surathkal)

Mr. Aravind K. G.

B.Tech. (Naval Architecture, APJKTU University)
M.Tech. (Marine Engineering, CUSAT)

Ms. Akram P. A.

B.Tech. (Civil Engineering, CUSAT)
M.Tech. (Civil Engineering-Offshore Structures, NIT Calicut)

Department and the Indian Navy

The Indian Navy since 1967, has been sponsoring Officer Cadets for the four years B.Tech. program in Naval Architecture and Ship Building at the Department of Ship Technology. Every year 7 Officer Cadets from the Indian Naval Academy get admitted to the department after initial training for six months at the Indian Naval Academy. The Principle Goal was to develop a new generation of Naval Architects capable of meeting the needs of Design, Construction and Research & Development of indigenous Warships of the Indian Navy.

Students onboard Indian first indigenous aircraft carrier, INS Vikrant

The Naval Construction Wing

The Naval Construction Wing located at Naval Base Kochi is a premier training centre for Naval Architect Officers of the Indian Navy. The training at the Naval Construction Wing is complex and unique, wherein the Officer Cadets who undergo B.Tech. at CUSAT are imparted with naval training. As part of training, they follow a rigorous routine that includes physical activities such as Games, Swimming, Rifling, Parades, Drill etc. and naval orientation. The trainees from NCW are dependents on Cochin University for their academic curriculum, where they attend regular classes at the Department of Ship Technology with their civilian counterparts and represent the Department in various technical paper presentations, seminars, and sports. The main objective of the Naval Architecture training is to create future Naval Architects who are professionally proficient and academically sound. NCW (Kochi) has produced almost 400 Naval Architect Officers for the Indian Navy who are presently involved in state-of-the-art Ship design, Ship building and other operational roles.

Faculties from Indian Navy

The Naval Officers posted at NCW share the academic load at the Department of Ship Technology by taking classes for various subjects. They are also involved as Project guides and Project coordinators for final year B.Tech. projects.

Cdr. Deepak Sebastian

B.Tech. (Naval Architecture, CUSAT)
M.Tech. (CASAD, CUSAT)
Post Graduate Diploma (Naval Construction & Warship & Submarine Design, IT Delhi)

Lt. Cdr. Anand S Nair

B.Tech. (Naval Architecture, CUSAT)
M.Tech. (Ocean Structures, IIT Madras)
Post Graduate Diploma (Naval Construction & Warship & Submarine Design, IT Delhi)

Lt Gaurav Tohlan

B.Tech. (Naval Architecture, CUSAT)
PG DIT (Guide, IIT Delhi)

Department Facilities

COMPUTER LAB

Our Computer Lab is equipped with the latest Ship Design & Analysis software and high-End Workstations such as

- Maxsurf Marine
- AutoCAD
- General Hydrostatics (GHS)
- NavCad Rule Books of Classnk, IRS
- MAXSURF from Bmt (2005 release)
- Matlab & Simulink
- Rhino
- CATIA
- Ship Constructor
- ANSYS
- Orcaflex
- ABAQUS

LIBRARY

The department library is fully automated and is rich in collection with more than 10,000 books and journals in Naval Architecture & Shipbuilding.

HYDRODYNAMIC LAB

The Hydrodynamics Lab features a wave flume that facilitates the study of wave effects on coastal and offshore structures, supporting research in marine dynamics and renewable energy.

MODEL ROOM

The model room consists of an engine room model, handed over by Cochin Shipyard Ltd. and the ship models made by the students.

WORKSHOPS & LABORATORIES

Our department has sophisticated laboratories and workshops for enhancing basic engineering skills. It includes a fitting shop, welding shop, machine shop, fluid mechanics lab and an electrical lab.

RECRUITMENT FACILITY

The Department is well-equipped with all the amenities required to conduct a smooth offline as well as online recruitment drive.

Summer Internship

Students undergo summer training programmes at various maritime-related firms as an integral part of their curriculum. It provides an interface between the students and the shipbuilding industry, which creates a better understanding of the fundamental activities in the global shipbuilding industry.

List of major companies offering training to students of the Department of Ship Technology:

India

- Budgerigar Consultants and Engineering
- Chowgule Shipyard Pvt Ltd.
- Dotrish Shipyard Ltd.
- Dynacons Software Technologies Pvt. Ltd.
- Garden Reach Shipbuilders and Engineers
- Goa Shipyard Ltd.
- Hindustan Shipyard Ltd.
- Indian Register Of Shipping

Recent Recruiters

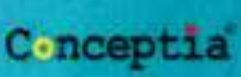

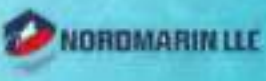

Nurturing a Legacy of Tenacious Alumni...

Academic rigor and industry exposure have ensured that the people who graduate from the institute are well equipped to handle positions of great responsibility in the best firms around the globe.

1500+

Strong alumni base build over 50 years

Industrial Recognitions to the Department

The **ClassNK Best Project** Awards, presented by ClassNK Japan, is given annually to acknowledge the Best Final Year Projects of B.Tech. NAESB.

An MoU was signed with **Cochin Shipyard Ltd.**, which provides internships, industrial visits etc.

RINA CUSAT Student Chapter was officially launched by Mr. Chris Boyd, the Chief Executive of RINA (Royal Institution of Naval Architects).

The Department has a Consultancy wing named **DESCON**, which contributes to Maritime Design and Consultation solutions to the Inland Water Transport Department.

Various shipyards and R&D organizations contribute a diverse range of ship models, reflecting its strong industrial recognition and collaboration within the maritime sector.

The Vice Chancellor of University of Technology & Applied Sciences, Sultanate of Oman will be initiating productive partnerships with our department.

Oshima Shipbuilding Co. Ltd. Japan, contributes a vast collection of valuable books every year to the Library.

Royal Institution of Naval Architects (RINA) Student Naval Architect Award 2022 distribution ceremony

MESSAGE FROM THE INDUSTRY LEADERS

Dr. Abdul Kalam
Chief Maritime Strategy & Innovation Officer
Lite Class

"As a proud alumnus of the Department of Ship Technology, I can confidently say that the graduates are not just skilled naval architects, but resilient professionals who are well-prepared for the dynamic challenges of the maritime industry. The rigorous academic training, coupled with practical exposure and a results-driven culture of excellence, makes the graduates of this department truly stand out. They are well-rounded team players, brilliant, hardworking, and will be an asset to any organization. I wish the 47th batch of naval architects every success for a bright future."

Shibabadeva K.M.
Commercial Director
Advanty Damen

"Advanty Damen has been recruiting Naval Architects from the Department of Ship Technology, CUSAT, for the past 18 years through campus placements. CUSAT graduates consistently demonstrate strong academic knowledge, a solid work ethic, and excellent adaptability to multicultural teams and dynamic work environments. Many have excelled in both technical and managerial roles. The management of Advanty Damen has always valued the contributions of CUSAT Naval Architects. I wish the upcoming graduates every success in their future endeavors."

Satyendra K Nandekar
Managing Director
SeaTech Integrated Technology Private

"SeaTech has benefited immensely from the graduate placement program of Department of Ship Technology, Cochin University of Science & Technology. As a centre of excellence in marine design, innovation & technology delivering cutting edge design services and bespoke engineering solutions around the globe, we have found that young and passionate graduates from CUSAT have quickly aligned with our high professional standards, work ethics and the rigours of international operations. This is attributable to the excellent academic practices and standards being followed at the university, availability of outstanding facilities and highly qualified faculty. They bring value to the organization and, in turn, we nurture them with the best industry practices, knowhow in state-of-the-art marine technology and skillsets in high end software which are available across our global centres of operations."

Ashik Sahabudeen
Managing Director
Sea Safe Marine & Offshore Engineering

"Naval Architects from the Department of Ship Technology are excellent. The course curriculum and internship approaches are tailored such a way that the passed out naval architects can start their work immediately without training in any segment of marine, offshore and oil & gas. I was had several interactions with various maritime entrepreneurs in the Middle East and Far East and our naval architects are well acceptable to all of them. The library at the department is the treasure house of maritime knowledge for the entire world. All the very best to the passing out students and Department of Ship Technology!"

MESSAGE FROM THE INDUSTRY LEADERS

Ali Ashraf
General Manager
Konsham LLC

"As General Manager of KONSHAM LLC and a proud alumnus of the Department of Ship Technology, CUSAT, I have had the privilege of maintaining a long-standing association with the department. Since conducting our first campus recruitment in 2008, we have regularly selected Graduate Naval Architects from this institution. The recruits have consistently demonstrated strong technical knowledge, professionalism, and adaptability, contributing significantly to our organization's success. Their performance reflects the department's high academic standards and practical orientation. I sincerely commend the department for nurturing such capable and industry-ready professionals who become great assets to the organization.
I appreciate the department for its dedication to academic and professional excellence and look forward to continuing our collaboration in the future.

Rajesh Babu Subramanian
Director - Projects
Dhan Marine Maritime LLC

"Our experience with recruiting Naval Architects from Department of Ship Technology, CUSAT, has been highly rewarding. Last year's recruitment process was also well-organized, and we were thoroughly impressed with the performance of all the students. Each one demonstrated a high level of subject knowledge, problem solving abilities and strong interpersonal skills. It was evident that the students were well prepared for the challenges in the industry. We look forward to continuing our association with the department in the coming years.

Vinod Janardanan
Director South Asia Zone
Bureau Veritas Solutions
Marine & Offshore

"The graduates from DOST have been proving their mettle in the industry for the last fifty years. They bring to the table academic excellence honed through four years of study spanning an eclectic mix of disciplines in naval architecture and shipbuilding. This is reinforced by the multiple internships they participate in. They also attend technical seminars and talks conducted in the department by stalwarts from the industry. The ties that the department maintains with the industry means that students are up to speed with the latest trends and the graduates hit the ground running when they start their careers. I am confident that the 47th batch of naval architects will build on the lasting legacy of DOST and I take this opportunity to wish them the very best in finding jobs which will catalyse illustrious careers.

Anilkka N T
CEO & Managing Director
Concepts Software Technologies

"Concepts employs talented Naval Architects from the Department of Ship Technology. With times batches already contributing to our ship design efforts their professionalism, technical expertise, and collaborative spirit are truly appreciated. The department's faculty ensures these graduates are well-prepared both academically and interpersonally. We value the partnership and continue to welcome new graduates each year, confident in their ability to thrive and innovate within our team.

SNAS

SOCIETY OF NAVAL ARCHITECTURE STUDENTS

Founded in the year 1979, the Society of Naval Architecture Students (SNAS) is an academic organization of students enrolled in the four-year B. Tech. program in Naval Architecture and Shipbuilding at the Department of Ship Technology, CUSAT. It is one of the first professional student bodies in universities across the country. With a legacy spanning over 46 years, SNAS remains a cornerstone of the department's technocultural and social activities.

SNAS ACTIVITIES

DIMS 2024

Students showcased their dedication and enthusiasm through the volunteer efforts, ensuring smooth operations, assisting speakers, and facilitating the engagement of participants. SNAS members contribute significantly to the event's organization, embodying professionalism and a passion for maritime advancements.

GOLDEN JUBILEE CELEBRATION

The Golden Jubilee Celebration on December 31, 2024, marked 50 years of the Department of Ship Technology, CUSAT. Highlights included guest speeches, the release of Shipstechnic's special edition, cultural performances, and alumni interactions—honoring the department's legacy with pride and nostalgia.

GOLDEN JUBILEE NATIONAL SEMINAR

As part of its Golden Jubilee, the Department of Ship Technology, CUSAT, hosted a two-day National Seminar on "Future Trends in the Maritime Industry," bringing together experts, students, and academia to discuss AI, decarbonization, and sustainable maritime innovations.

SHIPSTECHNIC

SHIPSTECHNIC, the annual technical journal of the Department of Ship Technology, celebrates its 35th edition with a special Golden Jubilee issue a journal that sets on five decades of innovation and technological excellence in the maritime world.

ALUMNI INTERACTIVE SESSIONS

The Alumni Interactive Session offered insights into career paths ranging from offshore operations to academia. Key topics included maritime education trends, emerging technologies like AI and decarbonization, and a preview of the department's Golden Jubilee, strengthening alumni-student connections.

VIVID FESTIVITIES

SNAS hosted a range of celebrations such as Diwali, Christmas and Iftar night, with the goal of building community, embracing cultural diversity and cultivating an inclusive and vibrant environment for all students.

SNASNITE' 25

SNAS Nite was a memorable gathering for the Department of Ship Technology, uniting faculty, alumni, and students in a celebration of shared achievements. The event reflected the department's strong sense of unity and lasting legacy, creating an evening filled with nostalgia and meaningful connections.

NAUTIKA

NAUTIKA, the convocation ceremony, is a significant and proud event for the graduating batch of the Department of Ship Technology. It celebrates their hard-earned achievements, camaraderie, and dedication as they embark on their future endeavors in the fields of marine engineering and shipbuilding.

NAUKA

NAUKA, an inter-semester sports event, offers students a dynamic platform to compete across various sporting activities. It encourages a spirit of competition, teamwork, and sportsmanship, strengthening unity and camaraderie among students from different batches within the department.

SOFTWARE WORKSHOPS

SNAS organized impactful workshops to enhance technical skills among students. These sessions offered valuable hands-on experience with CAD software, Python, and Ansys, promoting technical proficiency and practical design skills.

WEBINAR SERIES

The Society of Naval Architecture Students recently hosted an engaging webinar series that captivated students with its rich content and expert insights. Each session offered a deep dive into critical topics in naval architecture, featuring prominent speakers from the industry.

Navigating the Maritime Decarbonisation Challenge

Mr. ARAVIND JO

Lead, Performance & Marine Fuels Advisor, Bloomfield

Autonomous Underwater Vehicles

Mr. Shyju John

Scientist

DRDO

Corrosion Challenges and its Mitigation in Marine Structures

Dr. Shashi Bhushan Arya

Associate Professor at the Department of Metallurgical and Materials Engineering, IIT Guwahati

Demonstrating exceptional craftsmanship and design sense, our students have secured 1st prize with a detailed model of a fishing trawler. Entirely built through hands-on effort, the model stands as a testament to their deep understanding of ship form and structure. This achievement continues the department's legacy of excellence in practical naval architecture.

The visit to NETL, Vikrantapuram, proved enlightening and inspiring, as students witnessed cutting-edge naval technologies and advanced facilities that sparked curiosity and enthusiasm.

Students of the Department of Ship Technology excelled at IIT Kharagpur's premier maritime tech fest Samudramanthan, winning over half the prizes through outstanding innovation, technical skill, and teamwork.

PLACEMENT PROCEDURE

1. Invitations and relevant information are sent out to organisations by the placement office
2. The organisations fill the job announcement form with job description and eligibility criteria
3. Interested and eligible students, meeting the job requirements complete the registration process with the placement cell
4. The final list will be provided to the organisation and they can shortlist the candidates
5. The drive day shall be finalized upon mutual agreement. The drive slot for each placement will be finalized by the placement cell

HOW TO REACH

COCHIN UNIVERSITY OF SCIENCE AND TECHNOLOGY

Nearest Airport	:	Cochin International Airport
Metro Rail	:	Cochin University Metro Station
Major Railway Station	:	Aluva Railway Station, Ernakulam Town Railway Station

Cochin University of Science & Technology
Kalamassery, CUSAT P.O.
Kochi - 682022
Kerala, India
